PREFACE

This index covers all names in all crosstables appearing in *Chess Tournament Crosstables* (CTC) by Jeremy Gaige.

The index is designed to be used together with the CTC volumes – it is not intended to be useful on its own.

The Entries

Each index entry consists of a name entry followed by a list of the crosstables that list that name, exactly as printed, among the participants.

The crosstable list is in chronological order, with crosstables for tournaments spanning two years listed under the first year only. For each crosstable entry, the page(s) on which it appears in CTC is also given.

The name entries have been grouped and sorted after ‘main’ name, *i.e.* the family name component spelled with a capital letter. Non-letters are not considered for sorting purposes. Thus, ‘van den Berg’ precedes ‘Berger’, and ‘l’Hermet’ would be placed after ‘Hermes’.

In cases where main names are identical, but the full names differ, any initials and first names, followed by prefix (*e.g.* von, van, de) and suffix (Jr.) are used to decide the order between the two: ‘Freyman, S’ is placed before ‘Freymann’, and ‘von Freyman’ would be placed between the two.

Recognizable ‘titles’ such as ‘Dr.’ and ‘Mrs.’ or ‘Miss’ have been placed after the full name (*e.g.* Holloway, E., Mrs.).

Letters not appearing in the English alphabet (*e.g.* ü or ä) have been sorted as the corresponding unaccented letter (*i.e.* u or a), but are considered to make up separate name entries: the tournament results of ‘Kruger’ are not merged with those of ‘Krüger’, but will be listed next to them.

The goal has been to place entries likely to refer to the same person together.

Names

A name in this context is a name exactly as printed in CTC, regardless of misspellings, misprints, abbreviations, or of the person it identifies.

Thus, the entry ‘Lasker’ should not be assumed to contain tournament achievements of Emanuel Lasker only: it may also contain references to his brother Berthold Lasker, and, in general, also references to lesser-known players of the same family name.

It should also be noted that as the form and spelling of a name differs depending on the original source, it may be necessary to look under several entries for a full list of all tournaments a certain *person* participated in. Transcribed names and names with accents are particularly prone to such ‘disfiguration’. Good examples are Evtifev (Evtifeev), Lipschütz (Lipschutz, Lipschuetz), and Rothländer (Rothlander, Rothlaender).

For participants in women’s tournaments, the title ‘{Ms.}’ has been added to the full name.

Pseudonyms mentioned in CTC have been added, in separate entries, after the full name, (*i.e.* Richter, E. / “Sudi”). In these cases, the pseudonyms have also been listed as name entries, and cross-referenced to the real name.

Similar names listed on different pages have been cross-referenced as ‘see also’-entries. These entries range from being entirely certain to refer to the cross-referenced name on the one hand, to being little more than guesses on the other. An example of the last type is the cross-referencing of the names ‘H-Stirling’ and ‘Hutchison-S’.

No attempt to correct names likely to contain spelling errors has been made.

Crosstables

The crosstable entries listed under each name entry refer to crosstables or knock-out tournament records listed in CTC, not necessarily to separate tournaments.

For example, the Nurnberg 1883 event covered one international and one national masters tournament, the latter consisting of three preliminary and one final tournament. All of these crosstables have been listed as ‘Nurnberg, 1883’.

The placement given in each entry is the position in a particular crosstable: it does not necessarily indicate that the player occupied the corresponding position in a tournament. Playoff results have not been taken into account.

In those relatively few cases where there is no place information for a player, this lack of information has been indicated with a dash.

(Page [v] is the page following the introduction, pages *i*–*iv* are found at the end of the volume.)

The *Additions and Corrections* (vol. III, p. [v], and vol. IV, p. [v]) have been noted, and all corrections of misspelled personal names have been made. Other errors have generally been left uncorrected, such as errors in tournament dates, and the odd spurious crosstable (Stockholm, 1919, p. 493).

Pages 147–166 differ slightly depending on the edition used. The differences between the first and second copy of *Chess Tournament Crosstables*, vol. I are large enough to require separate identification by references by superscript 1 and 2 respectively.

I would finally like to thank Valeri Kürsa and Jeff Sonas for their reports of errors in the text.

The index has been keyed by hand from the printed pages, but despite a careful proofreading of the entire material for the present edition, errors undoubtedly remain. Please send any corrections to e-mail *ath@algonet.se* or to Anders Thulin, Högåmöllegatan 9B, 5 tr, SE-212 19 Malmö, Sweden.
